ECN Topic: Windows XP Pro SP2 change to Windows XP Pro for Embedded SP3

INTRODUCTION

Winmate Release New XP Pro of Embedded SP3 to prevent impending EOL of XP Pro in the end of the year. XP Pro of Embedded includes the benefits both of XP Embedded and XP Professional.

Product Applied

The revision applies for all our Panel PCs and Our Embedded series computing. This OS is used only for the applications for Embedded Systems, for example, Kiosk or POS systems. It not allowed to use on customer PC's. XP Pro SP2 CD which was used in these products before, needed to install drivers from user manual CD, but XP Pro for Embedded Recovery CD includes all the drivers excluding touch driver. (external device)

DETAILS:

All the functions of XP Pro for Embedded are the same as XP Pro, XP Pro for Embedded can choose the language you need directly without installing another language pack. Since the application is for Embedded use, the limitation and treaty is the same as for XP Embedded.

See the table for an overview,

Winmate WindowsXP Comparable Table		
	XP professional	XP Professional for Embedded
Benefits	<ol style="list-style-type: none"> 1. Can be installed on any PC or Kiosk, Embedded system 2. No compatible problem 	<ol style="list-style-type: none"> 1. Long product life time 2. Customized made boot screen 3. Recovery CD is available 4. Multilanguage 29 countries 5. Smaller capacity compared to XP pro 6. Component is more than XPembedded
Defects	<ol style="list-style-type: none"> 1. EOL 2. No Recovery CD 3. High cost 	<ol style="list-style-type: none"> 1. Used on only Embedded System(e.q. POS, KIOSK), Not normal PC 2. Cannot install office
Accessory	<ol style="list-style-type: none"> 1. XPP CD 2. S/N number 	<ol style="list-style-type: none"> 1. Recovery user Guide 2. Recovery DVD (NO touch driver) 3. S/N number

How to identify?
